COMPUTER ENGINEERING

QUEZON CITY

COURSE CODE/TITLE:		**SECTION:**	
DATE PERFORMED:	10 -09 -2026	**DATE SUBMITTED:**	10-09-26
NAME:	Sean Andrei Evangelista	**INSTRUCTOR:**	Robin Valenzuela

ACTIVITY NO. ___ [ACTIVITY NAME]

1. PROCEDURE OUTPUT

What procedures did you perform?

2. ANSWERS TO SUPPLEMENTAL ACTIVITY

1) Create a structure named Rectangle to store a rectangle's length and width. Write a program that uses the structure to compute and display the area and perimeter of the rectangle.

main.cpp

Run ▶

```cpp
#include <iostream>
#include <string>
using namespace std;

 struct rectangle{

      float width;
      float leght;

    };
int main() {

    float area = 0.50;
    float perimeter = 0.50;

    rectangle rectangle;
    cout << "Enter width: ";
    cin >> rectangle.width ;
    cout << "Enter leght: " ;
    cin >> rectangle.leght;

    area = rectangle.width * rectangle.leght;
    perimeter = 2 * rectangle.width + rectangle.leght;

    cout << "AREA: " << area << endl;
    cout << "PERIMETER: "<< perimeter << endl;

    return 0;
}
```

Output

```
Enter width: 50
Enter leght: 50
AREA: 2500
PERIMETER: 150
```

2) Create a structure named Multiple to store an integer entered by the user and another integer x. Write a program that uses the structure to determine and display whether the first integer is a multiple of x.

main.cpp

Run ▶

```cpp
#include <iostream>
#include <string>
using namespace std;

 struct multiple{

      int integers;
      int x;

    };
int main() {

    multiple multiple1;
    cout << "Enter two number: ";
    cin >> multiple1.integers ;
    cin >> multiple1.x;

    int test = multiple1.integers % multiple1.x ;

    if (test== 0 ){
        cout <<  multiple1.integers << " is multiple of " << multiple1.x ;
    } else {
        cout << multiple1.x  << " is multiple of " << multiple1.integers;
    }

    return 0;
}
```

Output

```
Enter two number: 56
32
32 is multiple of 56
```

3. ARTIFICIAL INTELLIGENCE (AI) USE DISCLOSURE STATEMENT

I hereby declare that artificial intelligence (AI) tools were used, if applicable, in the preparation of this academic work. The following indicates the nature and extent of AI assistance:

Tools Used: _____

Examples: ChatGPT, Microsoft Copilot, Grammarly, QuillBot, etc.

Purpose of Use: _____

Examples: grammar correction, idea generation, formatting, summarization, code assistance, explanation of concepts, etc.

Extent of Use: _____

Explain how AI was used and confirm that it did not replace original thinking, analysis, authorship, or completion of the required work.

By submitting this activity, I affirm that my use of AI complies with T.I.P.'s AI usage policy and does not exceed the permitted limits for similarity, automated content generation, or academic assistance.

I understand that any false, incomplete, or misleading disclosure may be subject to investigation in accordance with due process and may result in sanctions for violation of existing T.I.P. policies.

Lab activities, templates, and related instructional materials shall not be reuploaded, reproduced, distributed, or shared with external organizations or third parties without the prior express written permission of the Technological Institute of the Philippines.
